AUTHOR INDEX

Ahmed, F., *see* Karim, M. et al.
Andersson, A., *see* Wiklander, L. and Andersson, A.
Brewer, R. (Canberra, A.C.T., Australia)
Book review of "Micromorphological Techniques and Applications" by D.A. Osmond and P. Bullock (Editors) 136
Cottenie, A. (Ghent, Belgium)
Letter to the Editor 133
Childs, E.C. (Cambridge, Great Britain)
Book review of "Soil and Water" by D. Hillel 277
Eswaran, H. (Ghent, Belgium)
Micromorphological indicators of pedogenesis in some tropical soils derived from basalts from Nicaragua 15
Fedorova, N.N. and Yarilova, E.A. (Moscow, U.S.S.R.)
Morphology and genesis of prolonged seasonally frozen soils of western Siberia . . 1
Galindo, G.G., Olguin, C. and Schalscha, E.B. (Santiago, Chile)
Phosphate-sorption capacity of clay fractions of soils derived from volcanic ash . . 225
Gilkes, R.J. (Nedlands, W.A., Australia) and Little, I.P. (St. Lucia, Qld., Australia)
Weathering of chlorite and some associations of trace elements in Permian phyllites in southeast Queensland 233
Goh, K.M. (Lower Hutt, New Zealand)
Amino acid levels as indicators of paleosols in New Zealand soil profiles 33
Hayes, M.H.B., Stacey, M. and Standley, J. (Birmingham, Great Britain)
Studies on the fractionation of humification products of Ryegrass in sand columns . 105
Hoffman, D.W., *see* McKeague, J.A. et al.
Jager, A., *see* Jongerius, A. et al.
Jongerius, A., Schoonderbeek, D., Jager, A. (Wageningen, The Netherlands) and S. Kowaliński (Wrocław, Poland)
Electro-optical soil porosity investigation by means of Quantimet-B equipment . . 177
Jungreis, C., *see* Yaalon, D.H. et al.
Karim, M., Rahman, S.M., Ahmed, F. and Patwary, S.U. (Dacca, East Pakistan)
Studies of the efficiency of nitrogen and phosphorus fertilizer utilization by jute under various methods and times of application using isotopes 121
Khan, S.U. and Schnitzer, M. (Ottawa, Ont., Canada)
Permanganate oxidation of humic acids extracted from a gray wooded soil under different cropping systems and fertilizer treatments 113
Kodama, H., *see* Schnitzer, M. and Kodama, H.
Kowaliński, S. (Wrocław, Poland), Pons, L.J. and Slager, S. (Wageningen, The Netherlands)
Micromorphological comparison of three soils derived from loess in different climatic regions 141
Kowaliński, S., *see* Jongerius, A. et al.
Koyumdjisky, H., *see* Yaalon, D.H. et al.
Little, I.P., *see* Gilkes, R.J. and Little, I.P.
Maliwal, G.L. and Paliwal, K.V. (Udaipur, India)
Predictability of exchangeable sodium by gypsum requirement using cation exchange equilibria 215
McGrath, D. (Wexford, Ireland)
Hydroxyanthraquinones in soil 167
McKeague, J.A., Miles, N.M. (Ottawa, Ont., Canada), Peters, T.W. (Edmonton, Alta., Canada) and Hoffman, D.W. (Guelph, Ont., Canada)
A comparison of luvisolic soils from three regions in Canada 49
Miles, N.M., *see* McKeague, J.A. et al.
Nalovic, L. (Yaoundé, Cameroun) and Pinta, M. (Bondy, France)
Recherches sur les éléments traces dans les sols tropicaux: étude de quelques sols du Cameroun (Study of trace elements in some tropical soils of Cameroun) 249

Olguín, C., *see* Galindo, G.G. et al.
Orchard, E.R. (Pietermaritzburg, South Africa)
Book review of "Moving off the Yield Plateau" by J.D. Eastin and R.D. Manson (Editors) 135
Paliwal, K.V., *see* Maliwal, G.L. and Paliwal, K.V.
Patwary, S.U., *see* Karim, M. et al.
Peters, T.W., *see* McKeague, J.A. et al.
Pinta, M., *see* Nalovic, L. and Pinta, M.
Pons, L.J., *see* Kowaliński, S. et al.
Rahman, S.M., *see* Karim, M. et al.
Šály, R. (Zvolen, Č.S.S.R.)
Pleistozäne Periglazialbildungen als Muttersubstrat der Böden in den Westkarpathen (Pleistocene periglacial formations as mother substrate of soils in the West Karpathians) 79
Schalscha, E.B., *see* Galindo, G.G. et al.
Scheffer, F. (Göttingen, Deutschland)
Book review of "Die physikalische Untersuchung der Böden" by K.H. Hartge . . . 138
Schnitzer, M. and Kodama, H. (Ottawa, Ont., Canada)
Differential thermal analysis of metal-fulvic acid salts and complexes 93
Schnitzer, M., *see* Khan, S.U. and Schnitzer, M.
Schoonderbeek, D., *see* Jongerius, A. et al.
Singh, L. and Singh, S. (Varanasi, India)
Chemical and morphological composition of Kankar nodules in soils of the Vindhyan region of Mirzapur, India 269
Singh, S., *see* Singh, L. and Singh, S.
Slager, S., *see* Kowaliński, S. et al.
Stacey, M., *see* Hayes, M.H.B. et al.
Standley, J., *see* Hayes, M.H.B. et al.
Tokashiki, Y., *see* Wada, K. and Tokashiki, Y.
Wada, K. and Tokashiki, Y. (Fukuoka, Japan)
Selective dissolution and difference infrared spectroscopy in quantitative mineralogical analysis of volcanic-ash clays 199
Wiklander, L. and Andersson, A. (Uppsala, Sweden)
The replacing efficiency of hydrogen ion in relation to base saturation and pH . . . 159
Wilding, L.P. (Columbus, Ohio, U.S.A.)
Book review of "Micromorphological Features of Soil Geography" by W.L. Kubiena . 137
Yaalon, D.H., Jungreis, C. (Jerusalem, Israel) and Koyumdjisky, H. (Rehovot, Israel)
Distribution and reorganization of manganese in three catenas of Mediterranean soils 71
Yarilova, E.A., *see* Fedorova, N.M. and Yarilova, E.A.
